CROSS-REFERENCE TO RELATED APPLICATIONS
(Continuation status not claimed.)

*Please enter
S. Kennedy
2/2/05*

This application claims the benefit of priority from provisional application number 60/102,636 filed October 1, 1998, and entitled "IMPROVED COMPONENT MIXING CATHETER," the disclosure of which is hereby incorporated herein by reference thereto. This application discloses subject matter in the general field of commonly assigned copending United States patent applications nos. 08/838,078 and 08/839,614, both filed April 15, 1997, to patent application no. 08/946,364 filed October 7, 1997, to patent application no. 09/037,160 filed March 9, 1998 all naming Gordon H. Epstein as first inventor, and to U.S. patent application no. (unknown) filed May 21, 1998 naming Mitchell E. Levinson as first inventor and entitled "SEALANT APPLICATOR AND METHOD EMPLOYING IMPULSE CLEARING". The disclosures of the aforementioned United States patent applications, "the above applications" are hereby incorporated herein by reference thereto as is the disclosure of provisional application number 60/102,636 from which the present application claims priority. Continuation status is not being claimed at this time with respect to the aforementioned non-provisional patent applications. This statement is made without prejudice to applicant's right to claim continuation status at any time during copendency of the present application with respect to another application.
